

## **Progress Report – 2**

Name: Eranda Hettiarachchillage

Student ID: 300379041

Project Name: F25\_3375\_S4\_G5\_BuildMate

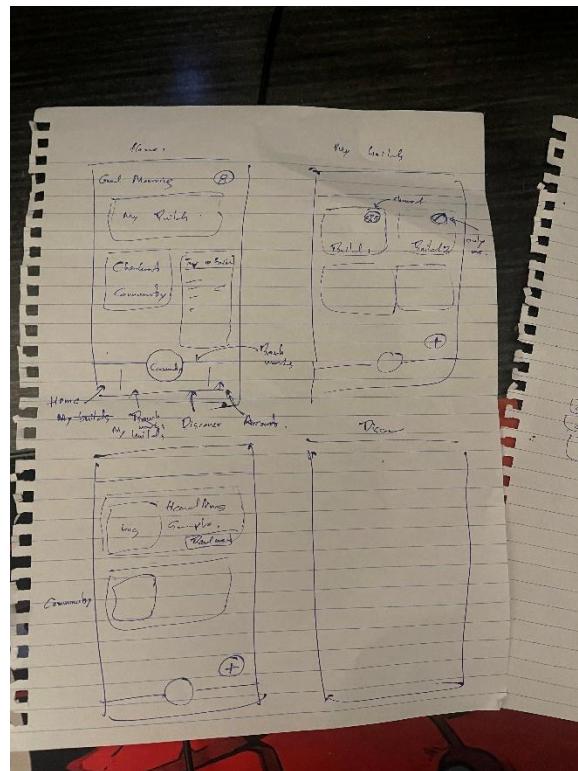

## Work Date/ Hours Log

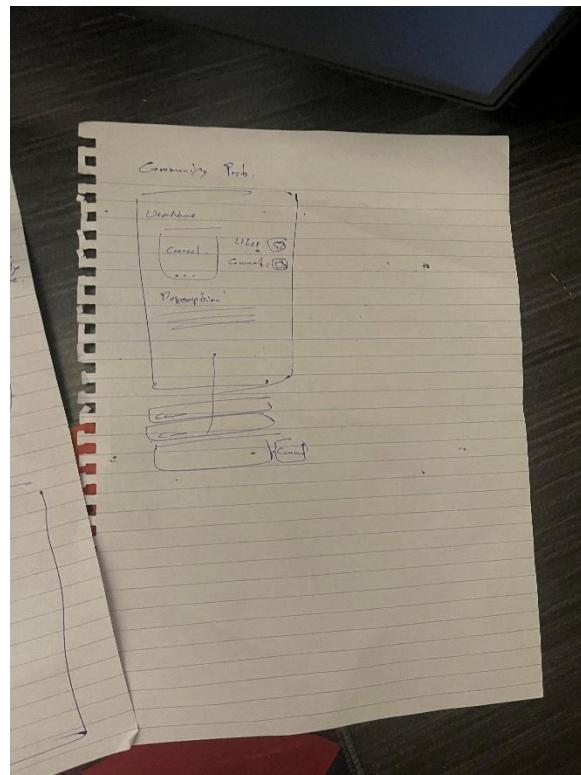

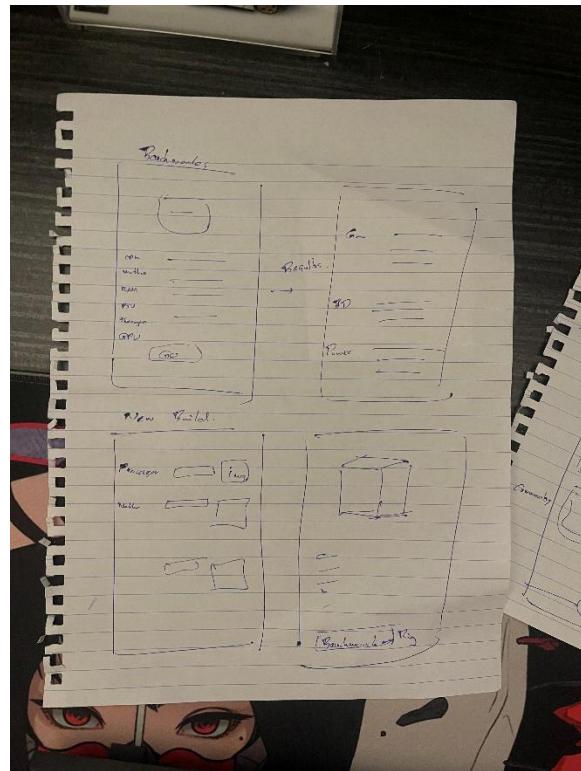

Date	Number of Hours	Description of work done
Oct 27, 2025	2	Looked at some apps again to get a better idea.
Nov 02, 2025	3	Drafted initial concept sketches.
Nov 04, 2025	2	Created the final set of sketches.
Nov 07, 2025	0.5	Meeting with Ruon and shared sketches and planned to begin work in Figma.
Nov 11, 2025	3	Started designing in Figma
Nov 11, 2025	4	Continued on Figma.
Nov 14, 2025	0.5	Chat with Ruon about the next steps
Nov 16, 2025	0.3	Prepared the progress report

## Description of Work Done

Oct 27 – Nov 07

During this period, I looked at existing apps and websites to get a clear idea for our project and to identify the features and functions we should include. I drafted some sketches before starting in Figma because it helps to begin the design process with a clear plan in mind. I shared these sketches with Ruon, and we planned to start working on the Figma designs next.

Nov 07 – Nov 14

I started designing in Figma and created a base layout for the Navbar so it can be reused across all necessary pages. I also designed several pages during this time. I got stuck while trying to design a dropdown menu. I tried multiple ways and followed tutorials, but I still couldn't get it to work. I had to find an alternative solution to avoid using dropdowns. Unfortunately, I spent more than three hours trying to fix that dropdown issue. After the Friday class I talked with Ruon, and we planned to speed up the design process moving forward.

## **AI Use Section**

I did not use any AI tools for my progress report.
